TRUE PARTNERSHIP IN TRUE DISCOVERY

In this 20th year of delivering innovations in SPECT/CT, we bring to you the 800 Series - a family of nuclear medicine systems that leverages everything we've learned.

The 800 Series brings our latest SPECT & SPECT/CT advancements to a wider range of clinical environments and improving outcomes through:

- Clinical excellence
- Patient satisfaction
- Operational efficiency
- Strategic growth
- Routine Quantitation

NM 830

Innovation with scalability for growth

The diagnostic power of a dual-head SPECT system and an extra focus on the personal comfort of your patients:

- Exceptional image quality and precise event detection
- User-friendly and efficient workflow
- Dose and time balancing for more personalized testing
- Powered by CT upgradable for hybrid imaging

NM/CT 850

Give every SPECT the perspective of CT

Deliver a definitive diagnosis with minimal incremental cost:

- Exceptional, precise CT images with low dose for attenuation correction and localization
- Thin-slice CT for low dose hybrid CT imaging
- Advanced hybrid CT applications like Q.AC and WideView
- Powered by SwiftScan SPECT and SwiftScan Planar
- SmartConsole workflow
- Effortless quantitation with Q.Volumetrix MI
- Upgradable to stand-alone diagnostic CT

NM/CT 860

The ideal balance of CT performance and clinical capability

The clarity to make a first-time diagnosis you can count on:

- Powered by SwiftScan SPECT and SwiftScan Planar
- A CT ready for stand-alone use when routine workflow turns into overflow
- Thin-slice CT with advanced features for stand-alone and hybrid imaging, like ASiR™, Q.AC, and WideView
- SmartConsole workflow
- Special features to improve a patient comfort
- Effortless quantitation with Q.Volumetrix MI

NM/CT 870 DR

A leading light in clinical discovery

Explore the deepest regions where disease arises:

- Powered by SwiftScan SPECT and SwiftScan Planar
- SmartConsole workflow
- Single breath-hold scans, 0.5-second rotation with high image quality
- Advanced CT features, including Smart MAR and ASiR™
- Effortless quantitation with Q.Volumetrix MI
- Upgradability to fully-digital SPECT/CT with CZT

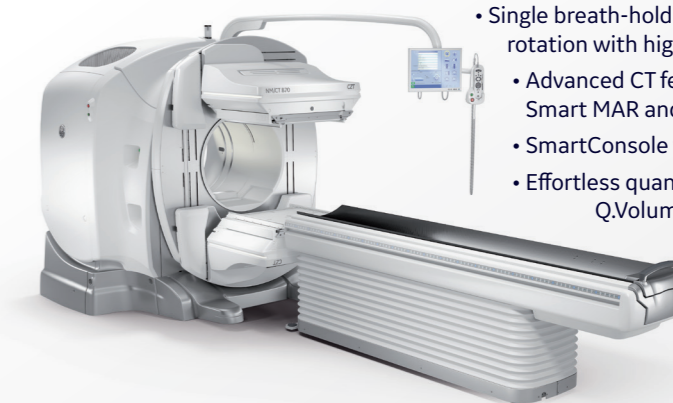

NM/CT 870 CZT

Bring theory to life with CZT

A 3rd generation CZT-based digital SPECT/CT enables increased quantity and quality of research so that you may explore:

- Simultaneous dual-isotope imaging (SDIS) through improved energy resolution of 6.3% versus 9.5%
- Diagnosis and treatment plan efficiencies
- Improving the patient experience with exam comfort
- Single breath-hold scans, 0.5-second rotation with high image quality
- Advanced CT features, including Smart MAR and ASiR™
- SmartConsole workflow
- Effortless quantitation with Q.Volumetrix MI

About GE Healthcare

GE Healthcare provides transformational medical technologies and services to meet the demand for increased access, enhanced quality and more affordable healthcare around the world.

GE works on things that matter - great people and technologies taking on tough challenges. From medical imaging, software & IT, patient monitoring and diagnostics to drug discovery, biopharmaceutical manufacturing technologies and performance improvement solutions, GE Healthcare helps medical professionals deliver great healthcare to their patients.
